

WELCOME

Its versatility, strength, lustrous colour and the fact that it produces virtually no lint is the reason Aurifil threads have achieved worldwide success, adored by a dedicated tribe of quilters, sewists, and textile artists.

Originally conceived for the Italian high fashion and luxury bed linen markets, Aurifil are purveyors of 100% Egyptian cotton threads, grown in the Mako region of Egypt and manufactured in Milano, Italy.

Thread is not 'just' thread when it's Aurifil.
