# Blockheads 4 - Introduction & Fabric

Here's what you need to know about Blockheads 4.

**Starting date:** Wednesday, March 23, 2022

**Ending date:** Wednesday, September 28, 2022

**Number of Blocks:** 28 Designer blocks and 8 Bonus blocks.

New blocks will be released each Wednesday by 8:00 AM CST. Bonus blocks will be released on Fridays, every three to four weeks.

**Block Size:** Each block can be made in two sizes - 9" finished and 4½" finished.

**Setting Options:** There will be multiple setting options shared, by several Moda Designers, and at least four setting options shared by Moda.

**Blockheads 4 Archive:** The Archive will be updated every Wednesday and Friday through September. The updates will include the following:

- Wednesday - a picture of the new block, it's name, and the designer - a link to blog post with the instructions - and any new setting options.
- Friday - a direct link to the pattern instructions - a link to Bonus blocks when those are added - any corrections or other information to share.

## Fabric Requirements - a starting point...

Because this is a sampler quilt and cutting isn't the most efficient, these yardage numbers are estimates, what we recommend. Note that the estimates are generous. (Very.)

Sashings, borders, binding and backing are not included. (But that's coming with the setting options.)
